(FOR THE COUNTRY.) THURSDAYS and SATURDAYS, at \$6 per annum-payable in advance.

THE STORY OF A STRIKE.-Persons who had occasion to visit the Schuykill coal region at any time from May to August, saw all about them the injurious effects of the miners' strike. Tourists for pleasure, except a few hardy ones, shunned the region as pestilential. Trade having almost stopped, even the adventurous commercial traveller gave the disturbed district the go by. Storekeepers did barely enough business to live on. Hotel proprietors were in despair at losing the rich patrons who customarily came with every summer to the breezy mountain tops or cosy nooks where their hostelries are situated. On piazzas usually promenaded by opulent old Phitadelphians, their buxom wives and blithesome daughters, sullen miners were seated, aglow with fiery potations from abounding bars, and discussing their grievances with tiresome iteration. The wives of these idlers were wearing out their lives in squalid houses, desperately striving to make their scanty supply of food go the round of a brood of hungry children-and the latter were as tattered and dirty and pinched as the poor iittle ones who fish through the gutters of New York for a living. As the strike continued and the hoarded earnings were withdrawa, dollar by dollar, from the savings banks, the peril of actual starvation set in; and all through the richer adjacent country these women begged for money and food to keep the souls and bodies of their households together. If the visitor, tired of contemplating all this squalor and wreichedness, turned for relief to the local newspapers that he found lying about his ion, he there discovered a new cause of depression in the grandiloquent appeals of editorscolumn after column-to the miners not to give an inch, but to fight out their battle to the last man and the last dollar. The same mockheroic sentiments were enforced in strings of doggerel from strikers "with the gift." The rest of these inflammatory journals was mainly cccupied with high flown accounts of the monster receptions accorded to this or that well fed and comfortable president of some labor union who had been up to see the miners, and conjured them by all that was sacred to starve rather than yield. And they took these apostles of liberty and equal rights at their word, and did starve-until early this month, when they made a clean back down from their ultimatum, and were glad to accept the terms that the mining operators or owners gave them .--The miners were obstinate and the operators not less so, for the latter had a large stock and could afford to stop work, with a view to get ting higher prices for the coal on hand. the miners came all the suffering, and to the operators a goodly line of prefits out of the strike. Finally, early in the present month, this senseless trouble ended just as every sagacious observer said that it would end. The losses sustained by the strikers are immense in

CIDER. - As eider time is at hand, we publish the following information as to its proper manu facture, furnished us by a friend, which will te of much use to those who will give it due attention, in enabling them to secure a better quality of this delightful beverage. Our friend says that "much of the excellence of cider depends upon the temperature at which the fermentation is conducted, and is a point greatly overlooked by manufacturers of this liquor. As soon as expressed from the fruit, it should be strained into sulphured casks and piaced in a cool situation where the temperature does not exceed 50 deg. Fah't-it left in the heating sun much of the sugar is converted into vinegar by the absortion of atmospheric oxygen, and thus the liquor becomes acid and rough. On the contrary, if the fermentation be conducted at a low temperature, nearly the whole of the sugar is converted into alcohol and remains in the liquor instead of undergoing the process of acetification. The acetous fermentation or the conversion of alco holinto vinegar proceeds most rapidly at a temperature of 95 deg. Fah't, and at lower temperatures the action becomes slower, until at 46 deg. Fah't, not such change takes places. Independently of differences in the quality of the fruit this is the principal cause of the superiority of the cider made by one person over another, living in the same neighborhood. The one has a cooler cellar or barn than the other to store his eider in. In practice it has been found that sour and rough apples produce the best eider. This arises because they contain less sugar and more malic acid, and the pres ence of the latter impedes the conversion of alcohol into vinegar, but eider made with such apples can never equal in quality that prepared at a low temperature from fruit abounding in sugar, which, if properly strained or racked at every indication of fermentation, will keep good twenty years .- Knoxville Whig.

THE DIFFERENCE. - One young lady rises early, rolls up her sleeves, goes in the kitchen to get breakfast, or insists upon doing so, and afterwards, with cheerful and sunny smiles, puts the house in order without the assistance of "mother." She will make a good wife and render home a paradise. Young man, "get

Another young lady is a parlor beauty, pallil from company, dissipation and want of exercise, reads novels and almost dies of laziness, while the poor old mother does her washing. She is a uscless piece of furniture, an annoyance to her own household, and a curse-to the husband she may chance to "rope in," and will go whining to her grave. Young man, "Let her alone !"

Immediately cured and Full Vigor Restored. This distressing Affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper in-dulgencies. Young persons are too apt to com-mit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the natural powers are lost sconer by those falling into improper habits than by the prudent? Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms of both body and mindarise. The system becomes deranged, the Physical and Mental Functions weakened.— Loss of Progrestive Power, Nervous Irritability. Dyspepsia, Palpitation of the Heart, Indiges-tion. Constitutional Dability and Wasting of the Frame, Cough, Consumption, Decay and

A CURE WARRANTED IN TWO DAYS Relief in Six Hours! No Mercury! Persons ruined by Ignorant, Trifling Pretend-

ers and their Deadly Poison, should apply immediately. DR. JOHNSTON, Member of the Royal College of Surgeons, London, Graduate of one of the most eminent

Colleges in the United States, and the greater part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great bashfulness, with frequent blushing, attended sometimes with derangement of mind, were

cured immediately. TAKE PARTICULAR NOTICE Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind. unfitting them for either busines, study, society or marriage.

These are some of the sad and melancholy effects produced by the early habits of youth, viz: Weaknese of the Back and Limbs. Pains in the Head, Dimness of Sight Loss of Mus-cular Power, Palpitation of the Heart, Dyspep. sia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c. MENTALLY -The fearful effects on the mind are much to be dreaded. Loss of atemory, Con

fusion of Ideas, Depression of Spirits, Evi Forebodings, Aversion to Society, Self Distrust Love of Solitude, Timidity, &c., are some of the evils produced. Thousands of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale

nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of Consumption.

YOUNG MEN Who have injured themselves by a certain practice, already described, a habit frequently learned from evil companions or at school, the effects of which are nightly felt, even when asleep, and if not cured, rerders marriage impossible, and destroys both nind

and body, should apple immediately. What a pity that a young man, the hope of his country, the pride of his parents, should be snatched from all prospects and enjoyment of life by the consequence of deviating from the path of nature, and indulging in porni-

cious habits. Such persons must, before con-

templating MARRIAGE, Reflect that a sound mind and body are the most necessary requisites to promote connubi-al happiness. Indeed, without these the jour-ney through life becomes a weary pilgrimage, the prospect hourly darkens to the view, the mind becomes shadowed with despair, and tilled

with the melancholy reflection that the happi ness of another is blighted with our own DISEASE OF IMPRUDENCE.

When the misguided and imprudent votary of pleasure finds that he has imbibed the seeds of this painful disease, it too often happens that an ill-timed sense of shame or dread of discovery deters him from applying to those who, from education and respectability, can alone befriend him, delaying till the constitu-tional symptoms of this horrid disease make their appearance, such as ulcerated sore throat, diseased nose, nocturnal pains in the head and limbs, dimness of sight, deatness, nodes or the shin bones and arms, blotches on the head, face and extremities, progressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this awful disease becomes a horrid object of commiseration till death puts a period to his dreadful suffering, by sending him to that undiscovered country "from whence no travel-

ler returns." It is a melancholy fact that thousands DIE victims to this terrible disease, through falling into the hands of ignorant or unskilful PRE-TENDERS, who, by the use of that deadly Poison, Mercury, &c., destroy the constitution, and incapable of curing, keep the unhappy sufferer month after month taking their noxious or injurious compounds, and instead of being restored to a renewal of Life. Vigor and Happi ness, in despair leave him with ruined Health
